Release

19 Sep

Old backups expire by this date

A quick tour of what changed · Simplified UI examples based on the platform

✓ Identification numbers are no longer collected or stored

PRIVACY

IC number

Passport number

→ Less personal data to manage

Removed from forms, uploads and stored records. Previous numbers permanently deleted.
Older backups deleted; remaining automatic backups expire by 19 September 2026. Only needed data is collected, in line with Malaysia’s PDPA.

👤 A registration number for every person

NEW

People Directory · example

Search Directory AOS-000123

Reg No. AOS-000123

Verification VERIFIED

Find and refer to people easily.

- Permanent, unique numbers. Never reused, even after deletion.
- All existing records numbered automatically.

🔍 Possible-duplicate warning

NEW

Possible duplicate person detected

Same name, date of birth and gender.

Existing matching record AOS-000123

Cancel

Create anyway

Catch duplicates when adding or editing people. Continue only for a different person.
Confirmations recorded. Match details stay within your organisation.

✓ Record verification without identification numbers

NEW

Verify Person Record

Verification Method *

Pre-registration record

Confirm Verification

Senior administrators check a pre-registration record or sighted document. No identification number is stored.
Name, birth date or gender changes reset verification.

✉ Email handling

IMPROVED

People Directory

Missing Email → No email (placeholder)

Find 233 records needing real emails. Temporary placeholders keep them editable.
New registrations require an email used by only one person.

☰ Cleaner, more consistent data

IMPROVED

8 columns for bulk uploads

No IC or passport columns

Update saved upload templates. Gender values now use Male or Female; empty emails cleaned up.

✓ Safer and more reliable

SECURITY FIXED

- Each new user sets their own password.
- Error messages keep internal details private.
- Completed matches show the correct winner.
- Security and maintenance updates protect reliability.

- Public pages hide birth date, gender and city.
- People, staff and import changes recorded.
- Over 200 checks before every release.

✓ What administrators will notice

👤 How partners can help (Ragbi Online)

- No IC/passport fields; Reg No. in the directory.
- Duplicate warnings and a Missing Email filter.
- Update saved templates to 8 columns.

- Collect real emails for Missing Email records.
- Refer to players by registration number.
